Ps Stemmet has made a significant contribution in distributing Derek's teaching across South Africa.

- Reaching the Unreached and Teaching the Untaught mandate
- Ps Stemmet is going to small towns where no one goes to on outreach.
- He is so grateful for the books he can leave behind for the new believers
- Over 50 ++ small towns "dorpies" do not have a resident pastor. He ministers and is now so grateful to be able to leave Derek's books with them.
- Bible Study groups have been established
- Many are being baptized in water, even at the SA Police College. And many are being healed and delivered.
- On going discipleship is being done via WhatsApp. He sends daily devotional message and updates on his travels.
- He has return visits to these towns.
- Thank the Lord we have these outreach books available for distribution. It would have costs us a lot on courier fees to distribute the books.
- He has ministered in many African countries and overseas

Great Karoo

Most of the towns have beautiful
Dutch Reformed Churches but no resident pastor

Pella Catholic Church - 1872

- Ps. Hamppie meets with 2 Catholic ladies who look after the church (tourist attraction). They cried when they were given a copy of the Foundation book in Afrikaans. They have been persecuted by the priest as they have now begun to study and believe the Word through Derek's teaching.
- Khoikhoi fled Namibia and sought refuge in Pella.
- **Unemployment, poverty** generations were slaves on the mines in that whole Northern Cape region
- Ps Hamppie is ministering to these people and giving them refreshing water of the Word they are so desperate and open to receive the Word.
