View & order your unique range of garments online

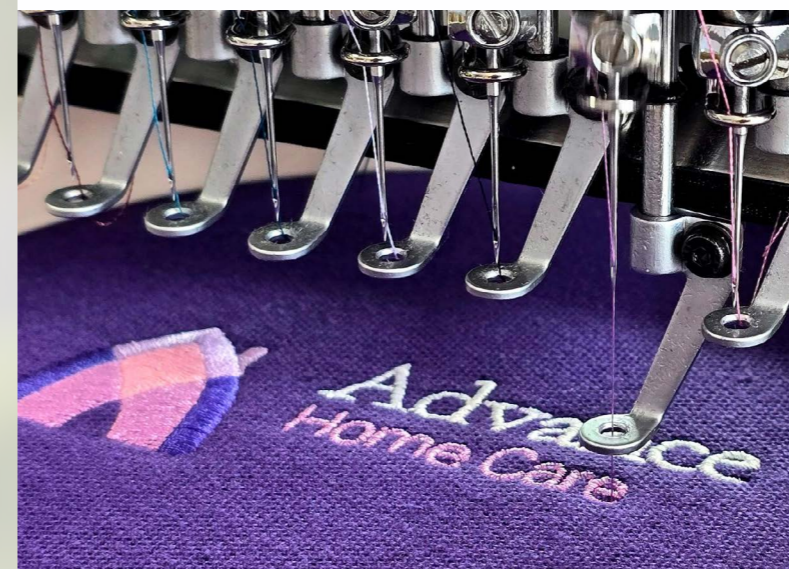

- 6. Free website design service**
For larger clients with multiple sites

- 7. Fast order turnaround**
For urgent orders ask about our rapid turnaround service.

Introducing our high quality logo embroidery and printing service

Why not add your care company logo to your garments?

We offer a professional full "in house" embroidery and printed logo service.

We can add your unique care company logo to almost any garment/item including tunics, scrubs, polo shirts, shirts and blouses, bags and satchels etc.

5 Simple Steps to adding your logo to your care garments

- 1. Send us a file of your logo**
- 2. We will digitally mock up your logo onto any number of garment images (so you can see how your logo will look once embroidered)**
- 3. Assess the visualisation we send you and approve the one you prefer**
- 4. Once approved we will email or post you an actual sample swatch of your embroidered logo**
- 5. Approve the embroidered swatch sample and we will then embroider an actual embroidered garment for your final sign off/approval**

By following the 5 simple steps above, we are able to guarantee 100% satisfaction with your logo putting you in control of how your logo will look on your care garments. We are very experienced in ensuring your embroidered garments project the professional image your care company deserves.

The 5 steps are all completely free of charge.

The Exciting World of Polos

Combining the softness of cotton with the durability of polyester, our polycotton polo shirts offer a perfect balance of comfort and performance. Easy to care for and built to last, these polos hold their shape and colour wash after wash — making them ideal for everyday workwear.

With a smart finish and dependable fit, polycotton polos are a reliable choice for teams that need to look professional and feel comfortable all day long.
