

Honey Snap
(7g honey)

Price: R10 each

Description:

Each snap pack contains 8 milligrams of **MG-LZ8** extract in a 7 gram honey snap pack sachet (South African award-winning packaging).

Reishi is remarkable at reducing inflammation and lowering stress. This product is ideal for those "on the go", who need a Superfood charge during the day, or looking for a sugar replacement for hot or cold beverages, smoothies, lunch boxes, etc.

MG-LZ8 is a pure double extract from the fruit body of Antler grown Reishi, which is 12 times more concentrated than Reishi found in the wild.

MG-LZ8 contains no alcohol and is Chitin free, non-GMO, 100% organic, water soluble, Vegan, and bio-available. **MG-LZ8 is the first pure Reishi Antler Double Extract in South Africa.**

Presents
MG-LZ8

South Africa's premium Reishi Antler dual extract.

Mushroom Guru's proprietary growing method produces Ganoderma lucidum Antlers, which are processed into a dual-extract employing advanced extraction technologies. The result is the pure dual-extract called **MG-LZ8** which is the cornerstone of the Ganoderma**GOLD**TM product range. It has been pre-clinically trialed to improve immune function by 43% within 48 hours.

Ganoderma lucidum is also known as **Lingzhi** in China and **Reishi** in Japan, and has been used for its medicinal properties for more than 2,000 years. This extraordinary fungus is a highly effective adaptogen and therefore regulates, balances, and harmonises the body with all its complex systems.

People that use MG-LZ8 report that they use it for:

- immune modulation
- reducing daily stressors
- cognitive function
- improving gut health
- reducing cholesterol
- reducing inflammation
- kidney and liver repair
- stabilising blood sugar
- anti-bacterial
- anti-viral
- regulating blood pressure
- natural blood thinning
- respiratory problems
- insomnia
- anti-aging
- anti-candida
- hormone production
- stem cell reproduction
- tumour reduction
- heart health
- allergy relief
