

DIAMOND ASTROLOGY ONLINE COURSE

A HIGHER DIMENSION IN ASTROLOGY

Module 1 - THE LUNAR AXIS

The Sun and the Moon are the two major heavenly bodies in the chart. Without these luminaires it is not possible for the rest of the planets to take root. In the field of the Metaphysical Luminaries both the Sun and the Moon are derived from the elliptical orbit of the Sun (from our perspective Earth) and the Moon. This gives access to the 2nd birth of who we are: our Essential Self.

COST
