

## MODULE 4

### FUSING DIAMOND AND TRADITIONAL ASTROLOGY

In these lessons you will learn to combine most of the 9 principles of Diamond Astrology: Black Moon, Priapus, Black Sun, Diamond, North Node, South Node, Dragon, Beast and the Part of Fortune. Also you will learn to fuse these principles with the traditional chart. In the previous three modules you have

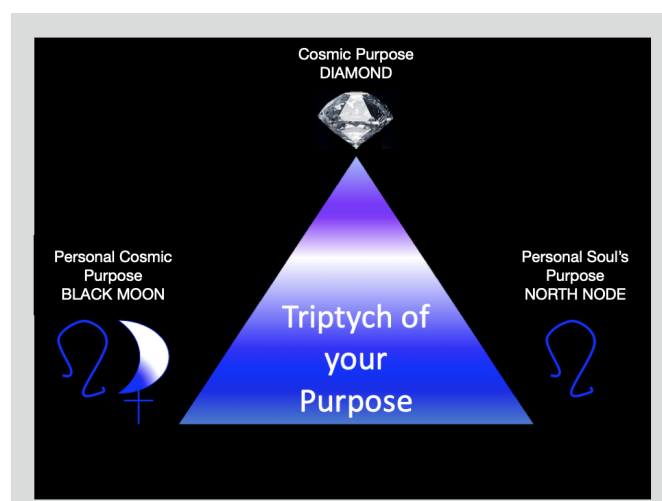

learned that each luminary has an important impact on the house and sign in which it is located. What if there are two luminaries or more in the same house and sign?

Adding these luminaries in the interpretation of the chart will give much important information and a holistic approach in the process of birthing the Essential Self. We will include the heavyweights Chiron and Pluto in combination with the Metaphysical Luminaries of Diamond Astrology.

## DIAMOND ASTROLOGY *ONLINE COURSE*

### Module 4 - FUSING DIAMOND AND TRADITIONAL ASTROLOGY

The Metaphysical Luminaries of Diamond Astrology can also be interpreted when they make aspects with each other. The conjunctions are the most powerful combinations. How to interpret for instance the Dragon conjunct the Black Moon, Priapus conjunct the South Node, the Black Sun conjunct the Black Moon, the North Node conjunct the Black Moon. We will discuss the most important combinations. There is so much confusion between the Black Moon and Lilith. What is the difference? Many people cannot see the forest through the trees. Also we will learn how to add Pluto in Diamond Astrology and last but not least: Chiron. How does the Wounded Healer relate to DA?
